# **A Plastic Bayonet Connector**

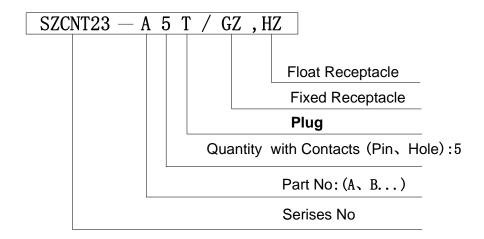

<u>www.edcon-components.com</u> email: info@edcon-components.com

### 一、Description:

- ❖ T85012 plastic bayonet connector can be classified into: multi-core, pin-hole assembly modes. Fixed and movable connections are available. With screened function.
- Type of contacts: welded type.
- ❖ Assembly mode of contacts: holes in sockets, contact pins in plugs.
- Operating environment: Sealed type.
- ❖ Features: quick connection and disconnection, convenient, safe and reliable operation and graceful appearance. It is mainly used in the mechanical tools industry power transmission and control, data processing and testing equipment as well as and occasions of outdoors or marine navigation, etc..

#### ☐ Models and types of products

T85012—A5T/GZ

### $\Xi_{\mathsf{v}}$ Main technical specifications

Working temperature	-15° C120° C		
Working current	220V		
Working Voltage	table1		
Contact resistance	table 1		
Insulation resistance	≥5000MΩ		
Insulation	1200V (DC)		
electric strength			
Mechanical life	500 times		

## 四、Contact Characteristic:

Table (1)

NameDrawing		working current(A)	contact resistance (n	wire diameter
