

# EDCON-COMPONENTS

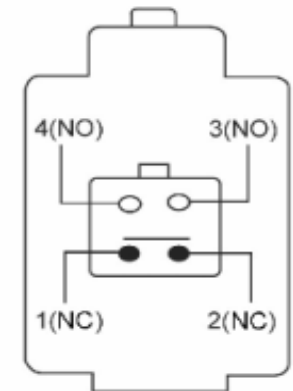

## Technical Discription

| Item                          |                     | Data                         |
|-------------------------------|---------------------|------------------------------|
| Rating Load                   |                     | 10(4) A 250VAC, 6(2)A/380VAC |
| Operation speed               |                     | 5mm-0,5m/s                   |
| Operation frequency           | Mechanical          | 240time/min.                 |
|                               | Electrical          | 20time/min.                  |
| Insualtion Resistance         |                     | 100MΩ (above) (DC500V)       |
| Contact Resistance            |                     | 25MΩ Initial value           |
| Withstanding Voltage          | Non-connection-wire | 1000VAC                      |
|                               | Every terminal      | 1500VAC                      |
| Vibration                     | Misoperation        | 10-55Hz (Amplitude) 1,5mm    |
| Impact                        | Durable             | 1000m/s                      |
|                               | Misoperation        | 300m/s                       |
| Life                          | Electrical          | 50000 (above)                |
|                               | Mechanical          | 1200000 (above)              |
| Protection Degree             |                     | IP65                         |
| Ambient Operating temperature |                     | . -25°C ~ +80°C              |
| Humidity                      |                     | ≤ 85%                        |

## Features

Economical Plastic type  
Double Way Switch , double spring inner switch  
Many kinds levers to move, easily use

## Contact Type and Connecting Plan

## Limit Switch

Part No.: **68011**

Customer:
